Mum, interview tomorrow. Can you send me twenty thousand for transport?
2:17 PM

I can manage ten. It is from the money for my prescription refill tomorrow. Your father can top it up, but tell him tonight.
2:25 PM
Please don't make this another secret.
2:25 PM

It's not enough, but Mum is already sacrificing. I need to ask Dad.

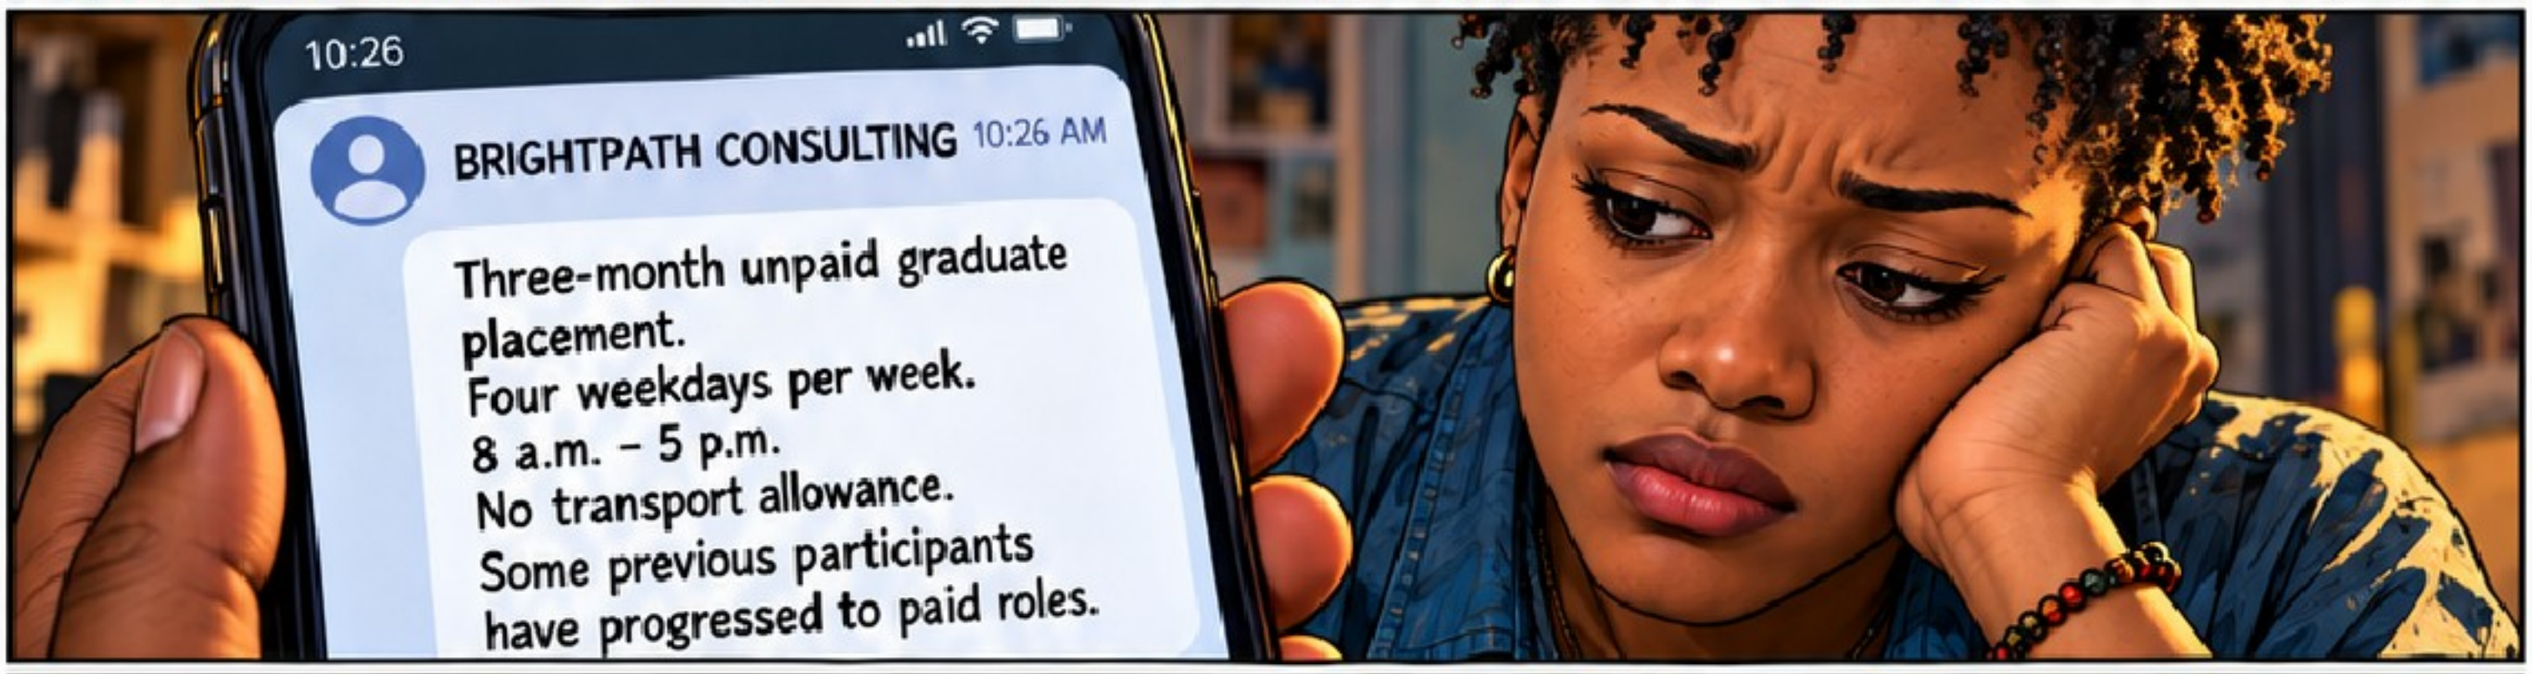

Mum has helped with ten. Could you send the other ten? She needs hers back for her prescription tomorrow.

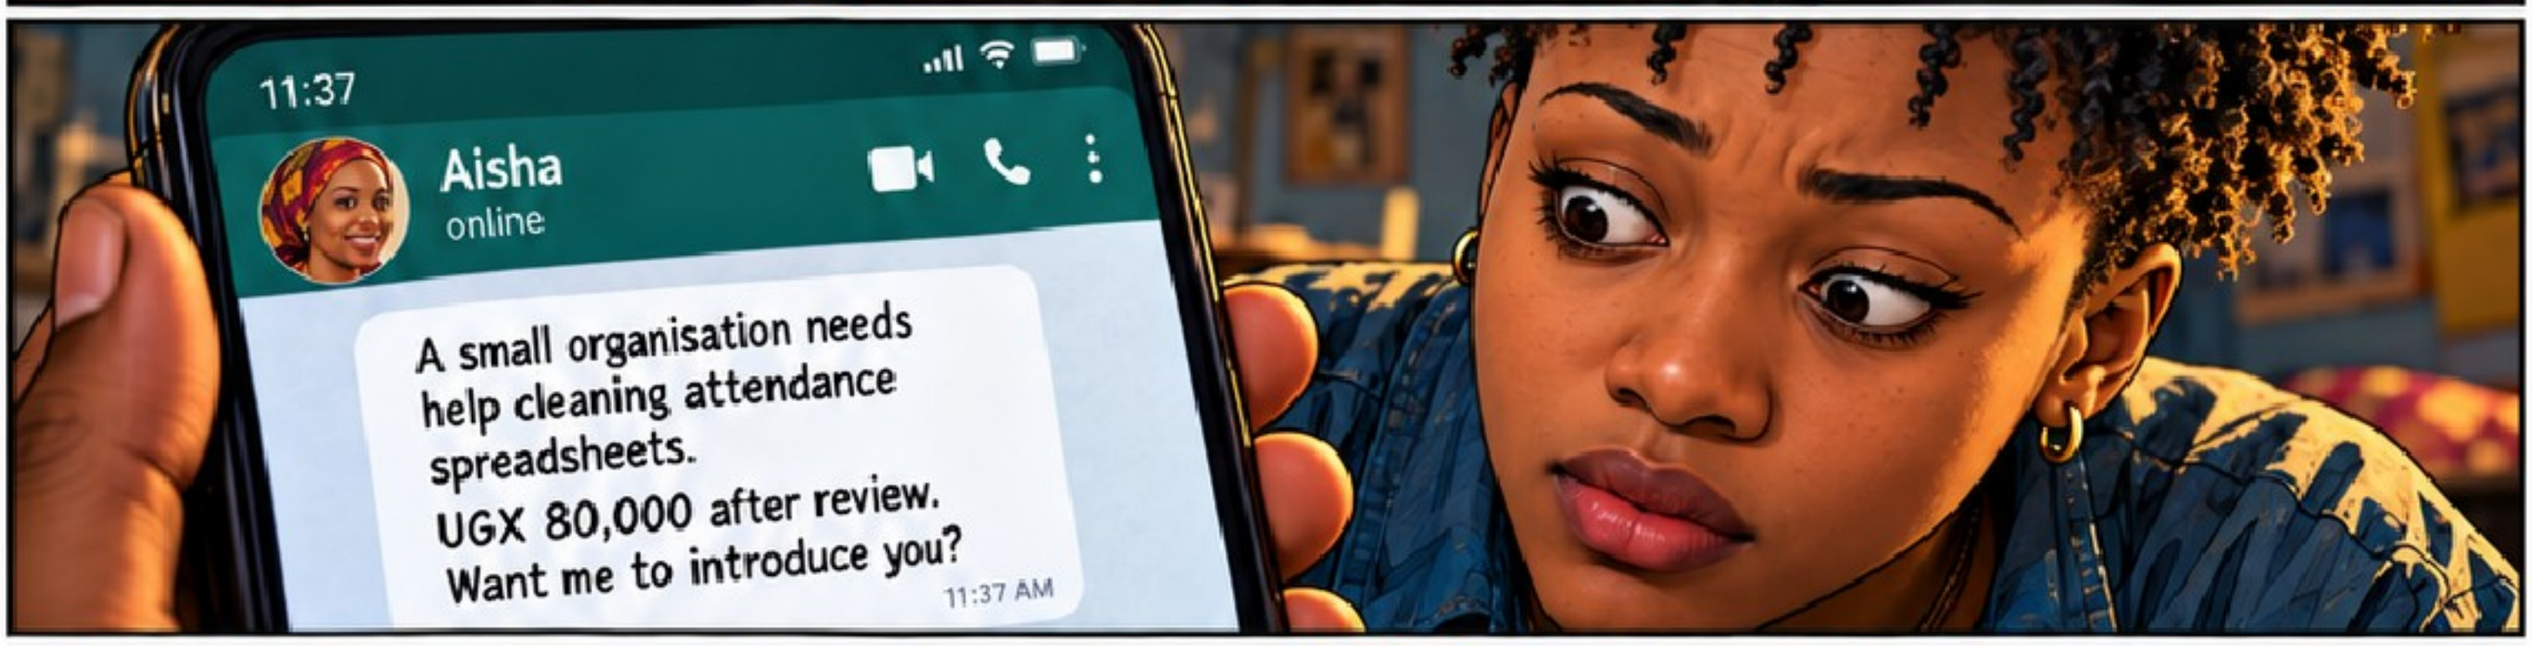

DAD'S TRANSFER • UGX 10,000
Dad transfers UGX 10,000 to Mum's phone to restore her prescription refill.

GOOD THINGS TAKE TIME

I can clean what is verifiable. I can't invent what is missing.

KIGO INITIATIVE

I can clean and deduplicate the usable records, provide a summary of those, and list missing information by 1 p.m.

I can't produce a complete attendance total without the missing dates. 11:22 PM

KIGO INITIATIVE

We need a complete report. 11:35 PM

As I explained, the dataset is missing several dates, so a complete attendance total isn't possible. I can deliver a cleaned file, a summary of available records, and a list of missing information. 11:37 PM

KIGO INITIATIVE

All right. Limited delivery for UGX 60,000. 11:42 PM

I'm skipping the interview and doing this task instead.

Is this a job?

And after?

A task.

I don't know yet.

Experience note – Kigo Initiative (Limited Delivery)
• What I did: Cleaned and deduplicated attendance records, summarized verified data & missing dates.
• Scope: Reduced from full report to limited delivery.
• Fee: UGX 60,000 (paid via Mobile Money).
• What I learned: Ask questions, confirm scope, get agreement in writing, and deliver on time.
Not a salary.
Not a solution.
But evidence.

My friend, twenty thousand shillings entered this house as transport money and left as a family meeting.
Which was harder: finding the money, or telling the whole truth?

SIXTY THOUSAND, WITH CONDITIONS
I chose the paid task. The scope changed. So did the fee.
